Lowe sensei is one the best Judo instructors I have ever met. He skilfully involves students of all levels, from beginners through high-level competitors, in ways that are equally challenging and fun.

He is as passionate about training beginners as he his in supporting Olympic level competitors. During his 35 year judo career, Lowe sensei has been involved in training & coaching elite judo players, who have competed in the Olympic Games, World Championships, European Championships, Commonwealth Games and British Open Championships.

He has trained some of the top Judoka in the world. A few of the Olympians he has trained with include: Winston Gordon, Kate Howey, Julian Davies, Neil Adams, Brian Jacks and Ray Stevens.

This clinic is a MUST, whether you are a player, coach or a recreational instructor.
